

Shell Programming

A Necessity for all Programmers

Finding files and directories

Nagesh Karmali | Firuza Karmali

Department of Computer Science and Engineering
IIT Bombay

You will learn to ...

- Find files and directories by name, type, etc.

- **find** <DirectoryPath> <Criteria>
- <DirectoryPath>: Relative/Absolute
- Criteria
 - by name: **-name**
 - by type: File - **-type f** Directory - **-type d**
 - by permissions: **-perm**
 - empty files/directories: **-empty**
 - Execute commands: **-exec**

Now, you can ...

- Find files and directories based on certain criteria

Thank you
